

Cambria Hotels partners with Elite Design Systems for Cutting-Edge Audio Visual Upgrade

White Plains, NY — January 2, 2024 — Cambria Hotels, a premier hotel in Downtown White Plains, New York, is thrilled to announce its collaboration with Elite Design Systems (EDS) to revolutionise their Internet and Audio Visual infrastructure. This comprehensive upgrade encompasses Security Cameras, Sound Systems, Networking, and Digital Signage, ensuring an unparalleled experience for both guests and staff.

General Manager - Sean Meade expressed the need for modernisation in the hotel's restaurants, lobbies, and common areas. EDS responded by meticulously upgrading the existing systems, granting seamless access to critical information and enhancing the overall Audio Visual experience. With this transformation, Cambria Hotels aims to set a new standard in hospitality technology.

Minimal Downtime, Maximum Impact: Bobby Imkhanitsky & Rick Ortiz, of EDS, emphasised their commitment to uninterrupted operations. "We meticulously planned every step" he stated. "From fulfilment processes to security monitoring and internet access, we ensured zero downtime. Our integration with the existing systems was flawless, all executed within a timely framework."

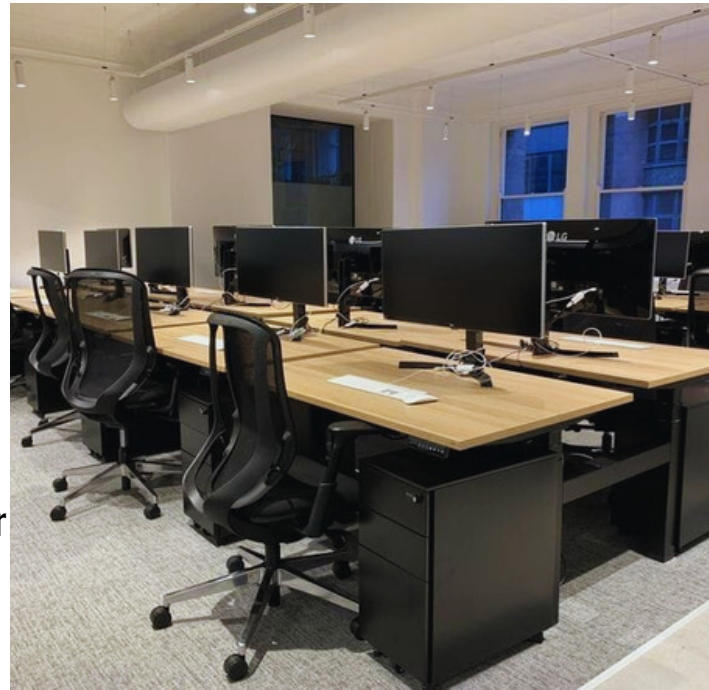

Bobby Imkhanitsky & Rick Ortiz, of EDS, emphasised, "We meticulously planned every step" he stated. "From fulfilment processes to security monitoring and internet access, we ensured zero downtime. Our integration with the existing systems was flawless, all executed within a timely framework."

Cambria Hotels looks forward to welcoming guests to a dynamic and immersive environment, where cutting-edge technology meets exceptional service. For inquiries or further information, please contact our PR department.
